COURSE DESCRIPTION
An understanding of classical ballet technique will be developed through an in-depth study of body line, posture and weight placement, the coordinated use of arms and eyeline, and the relationship between musicality and dynamics of movement. Sessions will be rigorous ballet classes where the foundations of techniques and movement combinations are discussed as part of the class. Active physical participation is required.

Prerequisite: Dance 2275A/B or Permission of the Faculty (obtained by instructor’s evaluation of provided dance background).

Note: “Unless you have either the requisites for this course or written special permission from your Dean to enrol in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.”

COURSE OBJECTIVES
1. Develop an area of concentration to address an individual weakness in classical ballet technique.
2. Develop awareness of body line by examining the relationship between body alignment, weight placement and eye focus.
3. Study musicality by examining the integration of music and the dynamics of movement.
4. Consider and understand factors that limit or allow skill progression.
5. Study and acquire ballet and musical terminology.
6. Develop teaching techniques by using clear explanations as well as appropriate dance and musical terminology.

COURSE FORMAT
Half course. 6 hours lecture/lab. Mondays, Wednesdays, Fridays: 10:30 a.m. – 12:20 p.m.

This course will follow the format of a traditional ballet class augmented by lectures where technique and theory are developed simultaneously. Each lecture/lab will be broken down as follows: 1) personal preparation (warm-up); 2) technique class; 3) lecture session, when appropriate, covering dance/musical terminology and technical knowledge. The rate of progression will, to some extent, be dictated by the abilities of the class members.

ATTENDANCE
This course involves the development of personal technique which makes attendance in class essential for success; attendance is mandatory. If unable to attend a class, contact the instructor by email in advance when possible. Unexplained absences will result in a reduction in your participation grade. Where physical participation might be limited due to an extended illness or injury, students are expected to observe the class and present a summary as assigned by the instructor. Consideration for extended absence from physical participation will require a note from a physician. This situation could also result in the student having to withdraw from the course. Punctuality is important for proper warm-up and injury prevention. Active physical participation is required.
COURSE TIMETABLE

Weeks 1-3 (January 7-25)

Introduction to class content and objectives. Students and instructor begin to evaluate technique for areas of strength and weakness.

EVALUATION

40% Daily Classroom Work - Evaluation will be based on the ability to apply material presented in class, understand and apply corrections, show improvement in identified area as well as overall and memorization of exercises. Therefore, missed classes could affect classroom work mark. Active, self-motivated participation and appropriate response to peer teaching will also be evaluated.

20% - Technique: Understanding/Response in Daily Class

Assimilation/Progress

15% - Commitment: Attendance, preparation, memorization of classes

5% - Response to Peer Teaching during practical assignments

5% *Written Self-Evaluation Report
